PROFILE

I have gain experties in various data science technique,including data cleaning and preprocessing, exploratory data analysis,and machine learning algorithms.I have honed my skills in programming language such as python,java and c++ utiliging libraries like Numpy, Pandas, matplotib, seaborn and scikit-learn for efficient data manipulation and modeling.

INTERNSHIP

Start-Tech Academy   11/2023 – 12/2023
data-analyst-skill-path   Mumbai, India
- learn industrial based work with python.
- Have worked Exploratory Data Analysis(EDA) on Housing Price dataset
- Successfully complete project on housing property price detection usin machine learning algorithm.

PROJECTS

Web Music Player
Skills:- Django, SQL, Python
- Developed a Web-based music player using python.
- Transformed the project into a web application using Django framework.
- Implement search functionality

EDUCATION

BSc.IT   2021 – 2023
Univercity Of Mumbai   Thane, India
8.30 CGPA

12th Class   2018 – 2020
I.D.U.B.S Jr College   Thane, India
56.31%

10th Class   Thane, India
Kalwa Hindi High School
77.60%

SKILLS

- Machine Learning
- Python
- Data Analytics
- Data Visualization
- SQL
- Statistics
- linear algebra
- java

CERTIFICATES

- SQL 🔗   • Power BI 🔗   • Data Analyst 🔗
